Initial Customer Account - Deposits?
Escrito por johntimber - 19/04/2018 12:25

_____

Hi,

I just downloaded and installed the latest version on my computer to see exactly how this works. I'm using this as a typical "Bank" system where customers can come in and make deposits and withdrawls. The question I have is should a customer come in and make a "deposit" or wish to "withdraw" how do I show this on their account? Where exactly in the Admin do I do this?

Any help will be apprecited.

I didn't find the right solution from the Internet.
